YOUTH GROUP SCOOP

Oct 14 - I Left "Mime" Heart in North Stonington...

I was invited to see home schooled Lydia and 20 others participate in a traveling mime show called "AIM (Action International Ministries)". Miming scenes to Christian song's while others signed the words, the messages were artful and powerful to both the viewer and participant. Great job Lydia!

Oct 18 - CROP Walk In rowing, we use a rule of thumb to gauge the safety of lengthy outdoor activities. It goes something like this: One has a potential for hypothermia if the combined temperatures of water & air do not exceed 80°. Assessing during church service on the CROP walk day, the outdoor temp. was 38°. We presumed the rain was about the same temp. as the air. $38^\circ + 38^\circ \neq 80^\circ$. So we did not CROP walk. Congrats goes out to brave Wendy & Paul Hayes who did walk half the length!?!? See you all next time?
